ABOUT ME

Trying to make new things day by day. Pursuing Bachelor of Computer Science & Engineering. I am learning CSE from AIUB, Dhaka, Bangladesh. Actually, technology excites me and I am always in awe of the change it drives in the world. Certain skills that I have worked with include Data Structures and Algorithms (C++), Web Development (HTML, CSS, MySQL), Object Oriented Programming (Java & C#). And what I might lack in skills I make up for with my determination to learn. Outside of my field, I am a Coca-Cola lover and a professional gamer.
